

# 2024 FIM-E 4th Round European Dragracing Championship NitrolympX-Hockenheim, Germany

In FIM-E there were a lot of Superstreet Bike entries which was great to see and witness all these racers from different Nations coming over to Germany for the 4th round of the European Dragbike Championship. On thursday after the riders meeting around 19:45 I asked them upfront to go to the startline to make a group photo and asked for permission, that was confirmed. Meanwhile they were all arriving and whe were told not to enter the startline area... I tried to explain that is was arranged but the security did not let us enter. To make a long story short in the end whe did it in front of the startline area and in the meanwhile the sun allready went down and made it hard to make a great image of all the Super Street Bikers. I tried and found once again some kind of waterloo, but this class is growing and you better be ready!

24 FIM-E SUPER STREET BIKES came to the group photo!

The Greek came also to the NitrolympX and there were lots of many! They all loved it to be at the Rico Anthes Quartermile track to Dragrace their high performance Super Street Bikes.

10 SUPER STREET BIKES from Greece at the 2024 FIM-E NitrolympX 4th round

# 2024 FIM-E 4th Round European Dragracing Championship NitrolympX-Hockenheim, Germany

The 4th round of the European Dragracing Championship was held in Germany at the famous Hockenheim Dragstrip called the NitrolympX. Like every year many teams attend this event also teams that do not compete in the Championship. But they can cause lots of problems for the point collection others need to become European Champion. So upsets can be a regular issue at this event.

It is popular in the center of Europe and from France, Greece, Malta, Italy the so called south located raceteams take the effort to make the travel as this is not all the way up in Scandinavia or the UK were the other events are held Santa Pod Raceway in the UK and Tierp Arena in North of Sweden.

Jake Mechaell from the United Kingdom was 1st Qualified with his JKE SSB! And Took home the Trophy!

Super Street Bike had a huge entry in the FIM-E which is great for the Dragbike sport in Europe. Strong contenders from the UK are in the lead for the European Title, but from Hungary there is pressure and a Dutch Lady is getting quicker and faster each event! She managed to become the quickest and fastest female in Super Street Bike in Europe! Saying that the quickest and fastest in the world on 68 inch wheelbase to my knowledge! Margot Schmidt is her name and she is a powerhouse! Well done Margot and Stefan and their complete Team Brothers Dragracing from Hungary.

Margot Schmidt from Holland on her Turbocharged Suzuki Hayabusa running a new PB and Female record!

## 2024 FIM-E 4th Round European Dragracing Championship NitrolympX-Hockenheim, Germany

Super Twin Top Fuel as it used to be called and now Super Twin Bike that makes it confusing as it is a Nitro class and should be know as far as I think.

The domination from Denmark is once again showed at the 4th round of the NitrolympX by the father and son combination operating under the name of Speedy's Basement Performance. Claus got a lot cooking in that basement and it ain't food...

It is amazing to see the points lead from Marcus already after 4 rounds he is leading with 367 points vs 197 from Per Bengtsson from Sweden with his Supercharged Paralelltwin "The Beast" Per is racing over 40 years on Dragbikes as I was told over the raceweekend.

Chris van Nimmen from Belgium did a great weekend of racing with his Nitro Harley and ran a fat PB of 6.65! He got tuning help from, guess who? SBP is the name...

They all did some offerings to the God of Speed over this weekend...

Nitro is for racing and is mean and can be a nasty friend, but if it works...there is nothing like it for sure.

Per Bengtsson with The Beast did a PB of 6.211@357,16 KMH!

Martin Buhler from Swiss came over after he tested his Nitro Super Twin at Mantorp earlier this year.

He had to take license runs for competing in the FIM-E class and managed to do so!

Soft settings but good riding skills from Martin to propell his Nitro Twin over the 1/4 mile on the Rico Anthes Dragstrip in Hockenheim, Germany.

Marc van den Boer from Belgium struggled over the weekend with gremlins on his home-build Nitro Super Twin. To my knowledge it was electrical problems.

To be noted that Carsten Hormann also competed with his Super Twin as a debut and did a good job. He use to run Super Twins for decades and no is runing also with Nitro.

After all that is the King of Racing Fuel and in a Super Twin it create Thunder!

# 2024 FIM-E 4th Round European Dragracing Championship NitrolympX-Hockenheim, Germany

In the FIM-E Pro Stock Bike class a German Dragracer is the points leader so far and the former Super Twin Top Gas Multiple European Champion decided to try his racing skills in FIM-E for the 2024 season. So far he is doing good and ran multiple pb's over the rounds this racing season.

Jorg Lymant is racing with a V-Twin 2600cc Racefuel injected and is capable to run low 7 seconds against a normally Suzuki 4 inline dominating force.

His rival so far is the former European PSB Champion from France Bertrand Maurice and the points are close. It will be an epic European Finals at Santa Pod Raceway in the UK!

Jorg Lymant from Germany on his mighty V-Twin Buell looking for that 2024 FIM-E PSB Championship!

## 2024 FIM-E 4th Round European Dragracing Championship NitrolympX-Hockenheim, Germany

TOP FUEL BIKE is allready decided at the 37th NitrolympX with once again from sweden with his Supercharged Nitro injected Puma TFB Rikard Gustafsson as the dominating force. He was on top in all the rounds and once lost on a holeshoot in Tierp! The potential of his TOP FUEL BIKE is incredible and the only one in Europe that reached the 250MPH mark on the 1/4! He did that multiple times. Not the ET recordholder but sure capable of doing so, maybe at the Finals? By typing this he claimed once again the KING of Mosten title again in Denmark at the famous MOSTEN Rock & Race event. How many so far? I believe 7 allready. For the pricemoney it is great as they pay better then then FIM-E as far I know. At the 37th NitrolympX it was Mark Simon Smith who took the victory with his Funnybike in an strange Final as the timing tree played up and Mark took the green while Rikard rolled trough the beams and did get a red light!? A weird situation that still can be debated till this day I think. Anyway Mark took the victory with his GSX Turbocharged Methanol Suzuki! Well done Warpspeed Racing and Mark for their achievement. Mike Olie was going strong over the weekend with his Kawasaki Funnybike and still has a change to become runner-up for the 2024 FIM-E TFB European Championship. Good luck Mike at the the Finals!

RG Engineering from Falkenberg Sweden is the Dominating force in FIM-E TOP FUEL BIKE  
The team allready claimed once again the European TFB Title at the 37th NitrolympX  
in Hockenheim, Germany with still the Finals to be raced at Santa Pod Raceway 5-8 Sep!

# 2024 FIM-E 4th Round European Dragracing Championship NitrolympX-Hockenheim, Germany

To sum it all up the 37th NitrolympX at Hockenheim in Germany is always special for many racers and family and there were over 56000 attending on saturday! Also to see the Famous Nightshow. And 4th round of the FIM-E European Championship 2024 came to an end with some set-up's and Championship points deciders in Super Twin and Top Fuel Bike. But not all is decided yet so the 5th round for most classes will be held at the great Santa Pod Raceway were it also started at the beginning of this season during the Main Event. Can we see records broken and PB's broken I think we can for sure if the weather holds up and the track conditions are there. It is allways an epic race the European Finals and performance wise teams are giving it all. Hopefully lots of spectators will be attending the Finals and see some great Dragracing!

Martin Buhler from Swiss made his License Pass in FIM-E Super Twin Bike and did great!  
He will be a great contender for the 2025 season in FIM-E Super Twin Bike!

The FIM-E European Finals will be held at Santa Pod Raceway in the United Kingdom  
on 5-8 September 2024.
